WORK EXPERIENCE

3D Designer | self employed

2018 – Present

- Planning and designing 3D visualization of residential and commercial projects.
- Conducting market research in order to implement clients' needs.
- Collaborating with architects, interior designers and entrepreneurs.

3D Designer | "Viewpoint"

2014 – 2018

- Designed and planned interior spaces for major construction companies from concept plan to final marketing stage.
- Effectively worked on multiple projects all under strict deadline.

Sales and Design | "Levi Brothers Ceramics"

2011 – 2014

- Providing assistance and customer service for selecting flooring and sanitaryware for private or business clients.
- Understanding the needs and budget constraints, creating visualizations, and offering design solutions

VOLUNTEERING

UX/UI Designer | "Max Impact"

2022 – 2023

Working as part of team member with developer and product manager for "Branco Weiss" association in collaboration with Max Impact.

- Translate user needs and business goals into effective design solutions.
- Leading a full design cycle from user interviews based research, developing product requirements and concepts, while focusing on an intuitive and easy to use experience for user.
- Pixel-perfect user interface design
